

Local Matters.

NEW STEAMER.—The hull for the *Forest Queen's* engine is fast approaching completion, it being the intention of the owner to have the new craft out in about sixty days; and we have the best of assurance that she will be a "sweet run" when she makes her appearance. Her dimensions are: Length over all, 205 feet; Breadth of hull, 28 feet; Depth of hold, 11 feet 9 inches.

She is being built in the most substantial manner and in model, strength and style, will unite all the finest going qualities, while her inside finish will be elegant and appropriate. Capt. PAUL KENTON, will, as a matter of course, have charge of the boat; ELLIS takes his old "posh" as Clerk.

VASSAR PLANK ROAD.—Contracts have been let for building eleven miles of the new plank road between this City and Vassar, and the prompt manner in which the people on the line respond to the assessments made gives assurance that they "mean business" and will permit no delays to occur by reason of their short-comings. That portion under the contract extends east from the Genesee Plank Road eight miles to a point about a quarter of a mile beyond the flourishing settlement of Frankentrost, in a continuous line, and commences again on the State line road five miles from Vassar, which is under contract for three miles. The stock subscribed is not yet sufficient to build the whole road, but it is daily being increased and our business men will see the necessity of coming down liberally to meet any material deficiency in this regard.

Post Office Notice.
MAILS CLOSE.—For Detroit and all places beyond, 6:00 A. M. and 1:00 P. M. All other Mails by Railway, 6:00 A. M. and 1:00 P. M. Midland, 7:00 A. M. Bay City, 11:30 A. M. Saginaw City, 11:30 A. M.

MAILS ARRIVE.
From Detroit, Central & Southern Railroad, and all places out of the State, 12:15 P. M. and 8:45 P. M.—All other Mails by Railway, 12:15 P. M. and 8:45 P. M. Saginaw City, 7:00 A. M. Bay City, 2:00 P. M.—Midland, 12:00 M.

THE NEW NUMBERS.—J. B. Beaman who is at present stopping at the Everett House in this city, is prepared to furnish numbers for dwellings and business places for those who desire them, of which he has several very neat patterns. The best are of white metal, bearing a perfect resemblance to silver, not liable to tarnish, and these are afforded at prices, which taking into consideration the intrinsic value of the article, are certainly very reasonable.

A NEW CRAFT.—The *G. W. Reynolds*, a neat low pressure river steamer, has just made her appearance in these waters, and will soon take her place on the route between here and Bay City. She is well adapted to that traffic, has capacity for carrying 400 passengers, runs with little expense, and in general style of make up, is decidedly a novel among the Saginaw river steamboat fraternity.

A CURIOSITY.—Mr. Talbot, Street Contractor, has rigged up an apparatus at the foot of Thompson Street for transferring sand from the dredge scows to wagons, which is decidedly a curiosity, and though not yet in complete working order, it saves a great amount of labor. It is a decidedly practical affair and would, with a little more power, be equal to almost any emergency in the line of its operations.

THE CROPS.—We learn from what we are bound to consider a perfectly reliable source that the wheat crop in many portions of this State is pretty much a failure. In many localities field after field has been plowed up to make room for spring crops and even where the showing is best there is but poor promise of anything like an average yield.

THE FORCING PROCESS.—One would suppose from the number of places labeled "for sale" and, in the main, in a style far more pertinent than elegant, that a majority of our inhabitants were contemplating an immediate stampede. Real estate agents are evidently determined to force things, and it is to be hoped their zeal will not get so much the start of their judgment as to induce an unfavorable impression among those likely to become legitimate purchasers.

YOST'S HAIR RESTORATIVE!

It is of no use to attempt to conceal the fact that Yost's Hair Restorative is the best thing for the human hair yet presented to the public. Taking precedence of all other preparations, it cleans the scalp, cools the head, and restores the hair to its original color. It produces a fine glossy softness, prevents its falling out, and restores it where it has fallen out. Ladies can find nothing equal to it. As a hair dressing it is really wonderful in all its properties.

Manufactured by E. L. Yost & Co., Indianapolis, Ind., and sold in this City by A. A. Deere, Bay City, Mich.
